CORE STRENGTHS

- 0→1 product development and end-to-end ownership
- Full-stack delivery across React, Node.js, FastAPI and PHP
- SaaS, ERP, healthcare, CRM and workflow platforms
- AI/LLM integrations across product workflows
- Architecture, RBAC, APIs and production deployment
- Client, product and cross-functional coordination

TECHNICAL SKILLS

Frontend

- React.js · JavaScript
- Tailwind CSS · HTML · CSS

Backend

- Node.js · Express.js
- FastAPI (Python) · PHP
- REST APIs

Data

- PostgreSQL · MySQL
- MongoDB · Supabase

AI & Integrations

- OpenAI · Gemini APIs
- LLM workflows · WhatsApp API
- Payment gateways

Platform

- Multi-tenant SaaS · RBAC
- Linux · VPS · Nginx
- CI/CD · cloud hosting

EDUCATION

B.Tech — Electronics & Communication Engineering
Aditya College of Engineering
Surampalem, Andhra Pradesh · 2019

BEHARA HARIKA

SENIOR FULL-STACK PRODUCT ENGINEER | SAAS · AI/LLM · 0→1 PRODUCT DELIVERY

PROFILE

Full-stack product engineer and former startup founder with 7+ years of experience building and delivering technology products from 0→1 through production. Hands-on across SaaS, ERP, healthcare, CRM, AI and workflow platforms using React.js, Node.js/Express, FastAPI/Python, PHP, PostgreSQL/MySQL/MongoDB, Supabase, REST APIs, multi-tenant architecture, RBAC and LLM integrations. Comfortable owning architecture and delivery while staying close to the code, the product and customer problems. Experienced working remotely with clients and distributed teams.

PROFESSIONAL EXPERIENCE

Senior Full Stack Developer — Quantira Technologies

Hyderabad, India Mar 2026 - Present

- Design and ship SaaS and ERP products across React.js, Node.js/Express, FastAPI and SQL/NoSQL data layers, owning modules from requirements and architecture through deployment and production support.
- Build role-based dashboards, authentication, business workflows, REST APIs, AI/LLM integrations, analytics and admin systems across concurrent enterprise products.
- Key delivery spans HR/workforce platforms, AI document-processing tools, ERP analytics, help desk and modernization initiatives.

Full Stack & WordPress Developer — Freelance / Independent Client Projects

Hyderabad, India (Remote) Mar 2022 - Mar 2026

- Delivered custom SaaS, CRM, healthcare, e-commerce and CMS solutions across 50+ client engagements, from discovery and UI implementation through backend integration, hosting, deployment and maintenance.
- Built role-based admin panels, payment/API integrations, WordPress/WooCommerce implementations and custom PHP CMS platforms.
- Worked across healthcare, AI-enabled CRM, assessment/education, marketing analytics, publishing and SEO products.

Founder & Technical Product Lead — Nightout TTS (EdTech Startup, Pvt. Ltd.)

Hyderabad, India Jun 2019 - Feb 2022

- Founded and led an education technology company, taking the product from concept through build, delivery and iteration while staying hands-on in technical and product work.
- Directed a small team building a KG-to-PG learning platform and technology-enabled training programs in WordPress and digital marketing.
- Owned requirements, product direction, implementation, delivery and user feedback, gaining early 0→1 startup and engineering leadership experience.

PRODUCT DOMAINS

- HRMS & workforce management
- Healthcare & medicine delivery
- AI document processing
- CRM & WhatsApp automation
- Assessment & examination SaaS
- Marketing analytics & automation
- ERP analytics & modernization
- CMS / publishing / SEO tooling

WAYS OF WORKING

- Owns a module, a product or the whole build
- Works directly with clients and stakeholders
- Translates requirements into architecture and delivery
- Ramps up quickly on new codebases and domains
- Stays hands-on while coordinating delivery

ENGINEERING FOCUS

- Frontend + backend delivery
- API and data-model design
- Authentication and role-based access
- Workflow automation and admin systems
- LLM/API integrations
- Deployment and production support

ADDITIONAL PLATFORM SKILLS

- WordPress · Elementor · WooCommerce
- Custom PHP CMS development
- Linux / VPS / Nginx hosting operations

SELECTED PROJECTS & PLATFORMS

Representative product work across SaaS, AI, ERP, healthcare and automation

QrewHR — *HRMS & Workforce Management SaaS · React.js · Node.js · Multi-tenant · RBAC*

- Built a multi-module HR platform covering people, attendance, leave, approvals, onboarding, assets, documents, payroll, recruitment, performance workflows, help desk, meetings and notifications.

ResumeForge — *AI Resume Standardization Platform · React · FastAPI · MongoDB · LLM*

- Built an AI pipeline to parse PDF/DOCX/image resumes, restructure candidate data, standardize templates, support live editing and bulk processing, and generate document outputs.

MedsConnect — *Healthcare & Medicine Delivery Platform · React · Node.js · Supabase*

- Built patient and clinic portals, appointments, doctor schedules, prescription-based pharmacy fulfilment and rider workflows with OTP/photo delivery confirmation.

Wellora AI CRM — *AI-driven Healthcare CRM · WhatsApp API · OpenAI/ Gemini*

- Developed an AI-enabled CRM for lead and patient communication over WhatsApp using LLM-driven intent handling, reusable knowledge-base responses, role-based access and operational dashboards.

QuizPilot AI — *AI Assessment & Examination SaaS*

- Designed a platform for institutions, faculty and professional users to run examinations, quizzes and live polls with instant results, AI-assisted reporting, question workflows and institution-level administration.

Ads Intelligence CRM — *Google Ads Analytics & Automation · FastAPI · React*

- Built a multi-account marketing intelligence platform for lead synchronization, campaign analytics, CPL/spend/conversion monitoring, anomaly alerts, tasks, calendars and reporting.

Enterprise Project & Workforce Management Platform — *React · Node.js · Multi-role SaaS*

- Built a platform spanning Admin, HR, Project Manager, Employee, Finance and Client roles, covering pipeline, projects, tasks, milestones, dependencies, risks, timesheets, reports, calendars and templates.

ERP Analytics, Help Desk & Modernization — *React · FastAPI · PHP-to-React Migration*

- Integrated KPI/executive analytics and an AI-assisted chat interface into an aquaculture ERP, built a help desk/ticketing module with SLAs, approvals and audit trails, and led frontend modernization from legacy PHP to React.

Healthcare CMS & Visual Page Editor — *PHP · MySQL · Custom CMS · SEO*

- Built reusable healthcare content-management systems with pages, blogs, reusable sections, forms/leads, media libraries, SEO controls, visual editing, code editing, revisions and role-based administration.

WHAT I BRING

- **0→1 product mindset:** founder experience plus repeated end-to-end ownership of new platforms and modules.
- **Hands-on full-stack depth:** React UI, Node.js/FastAPI/PHP services, SQL/NoSQL data layers, APIs, auth and RBAC.
- **Practical AI delivery:** OpenAI/Gemini integrations in CRM, document processing, analytics, assessments and internal tools.

Behara Harika · Senior Full-Stack Product Engineer
